Material required: 1 cup clear school glue, 1 cup water, 1 teaspoon borax, orange food coloring, Halloween-themed glitter or small plastic spiders/eyeballs for extra spookiness (*Optional*)

How to make it:

A. Create Borax Solution: In a bowl, mix 1 cup of water with 1 teaspoon of borax. Stir well until the borax is completely dissolved. Set this solution aside.

B. Make Colored Glue: In another bowl, pour 1 cup of clear school glue.

C. Add Orange Color: Add orange food coloring to the glue and stir well.

D. Combine Solutions: Slowly pour the borax solution into the colored glue while stirring continuously.

E. Mix Thoroughly: Keep stirring until the slime starts to come together. At this point, you can use your hands to knead and mix the slime. If it's too sticky, you can add a little more borax solution.

F. Optional: Add Glitter or [Halloween Decorations](#): To make your slime more Halloween-themed, add glitter or small plastic spiders, eyeballs, or other spooky decorations. Mix them into the slime.

G. Store: Store the slime in an airtight container when you're not using it. This will help keep it fresh for longer.

Borax options: contact lens solution or liquid starch
