To Infinity & Beyond

Thanks to a Cass County Community Foundation Opportunity Grant, the library was able to purchase a new learning tool for our younger patrons.

The Infinity Table is an educational computer that features a variety of learning apps. The table is geared for children aged 10 and younger. By playing games through the apps, children learn “A,B,Cs,” “1,2,3s,” and additional studies such as mathematics and grammar skills.

It’s another way for children to gain an education. Between books and hands-on techniques, children have multiple ways to explore new material.

The library keeps changing and growing as our patron needs keep changing and growing. Stop by and let your youngsters play on the new equipment. Let us know what you think of it.
